- 3. The DDA R&D Panel was able to rank our RD&E requirements without problems for you to resolve. While there was consensus agreement within the Panel (OS, ODP, and OC representatives), the office directors have not seen this ranking. You may want to discuss the ranking with them before submitting the package to DDS&T. Item 3B on the ranking list seems more like a market survey than an R&D project. Likewise, item 3C seems more like a routine ODP application development task. This may simply be a function of the Panel's grouping of like items, but the Panel is confident it can sort this out in dealing with S&T.
  - 4. This package was due in DDS&T 1 August 1979.
